STUDY PROCEEDS

Washington Feb. 8.—Admiral Walker concluded his testimony before the senate committee on inter-oceanic canals today, and Colonel Haupt, another member of the Isthmian canal commission, will be heard Monday next. The examination today was with ref-rence to the reasons why the canal ommission changed its recommendations from Nicaragua to the Panami route. The reasons given by the wit-ness for the change, summed up, are the Panama route is much shorter and the Panama route is much shorter and has fewer curves, and those curves which do exist are not so sharp as the curves in the Nicaragua route. He also said he believed that with proper quarantine regulations the health conditions in the region along the Panama line could be much improved. The commissions and not consider the arresent. mission did not consider the present

The questions bringing out these points were asked largely by Senator Hanna, who also made inquiries concerning the water supply for the Panama canal and the difficulties in the way of constructing a dam at Bahio. With reference to the dam, Admiral Walker said no doubt the engineering difficulties could be overcome, and he also expressed an opinion that the water supply would be ample. The questions bringing out these
